

Using python in Computational Chemistry

Dr Krishna K. Govender

- Open the **anaconda prompt** and run the following commands.
 1. `conda create -n pubchem python=3.7`
 2. `conda activate pubchem`
 3. `conda install spyder-kernels==2.4.* -y`
 4. `conda install -c mcs07 pubchempy -y`
 5. `conda install pandas -y`
 6. `conda install -c rdkit rdkit`
